Date of birth: 19/06/2004 | Gender: Male | Nationality: Nigerian (Nigeria) | Mobile phone: +36 705530122 | Email address: edochieolisa@gmail.com | Home address: 4024, Debrecen (Hungary)

👤 About me

Business Informatics student with a growing interest in data analysis and business intelligence. Currently developing practical skills in SQL, PostgreSQL, Power BI, Excel, and data visualization through personal and academic projects. I also have experience in SAP ERP, Salesforce, Zendesk, cloud services, and web technologies. Looking for an opportunity where I can apply what I have learned, gain hands-on experience, and continue developing my technical skills.

💼 Work experience

Customer Service Representative

21/08/2023 – 29/04/2024

Fossil Group Inc | Debrecen, Hungary

- Demonstrated excellent communication skills, both verbal and written, in order to effectively interact with customers
- Utilized SAP to check orders, monitor order status, and access related customer and order information.
- Used Salesforce to manage, track, and respond to customer support tickets.
- Responded to telephone inquiries and complaints following standard operating procedures

Cloud Operations(AWS S3)

06/01/2025 – 31/03/2025

Alpha Drone Defense | Budapest, Hungary

- Provided technical support through installation and configuration of computer hardware.
- Deployed and managed cloud resources on AWS S3 and configured domains and DNS records via Route 53 for project websites
- Set up professional email systems using Google Workspace
- Designed and implemented responsive web interfaces using HTML5 and CSS3, integrating them with cloud-hosted projects

Education & Training

Business Informatics

04/09/2023 – Current

University Of Debrecen | Debrecen, Hungary

Level in EQF: 6

Hobbies and Interests

Tech Enthusiast

- Personal tech and data projects
- Data visualization and dashboards
- Language learning
- Travel and learning about different cultures
- Exploring new technologies through hands-on projects

Projects

E-Commerce Data Analysis Project

30/09/2026 – 02/10/2026

- Imported and organized raw data in PostgreSQL.
- Cleaned data and set appropriate data types.
- Created relationships between tables using primary and foreign keys.
- Wrote SQL queries to explore sales, customers, products, payments, and orders.
- Built a Power BI dashboard using DAX measures and visualizations.
- Published the project on GitHub and added it to my portfolio.
