## 👤 About me

Business Informatics student with a growing interest in data analysis and business intelligence. Currently developing practical skills in SQL, PostgreSQL, Power BI, Excel, and data visualization through personal and academic projects. I also have experience in IT support, cloud services, and web technologies. Looking for an opportunity where I can apply what I have learned, gain hands-on experience, and continue developing my technical skills.

## 💼 Work experience

### Customer service representative

07/08/2023 – 29/04/2024

Fossil Group Inc | Debrecen, Hungary

- Handled customer complaints and inquiries in a courteous and efficient manner
- Demonstrated excellent communication skills, both verbal and written, in order to effectively interact with customers
- Developed strong customer relationships and loyalty through effective communication
- Responded to telephone inquiries and complaints following standard operating procedures
- Maintained knowledge of company products to provide helpful suggestions and recommendations to customers

### IT Support (Part-Time)

06/01/2025 – 31/07/2025

Alpha Drone Defense | Budapest, Hungary

- Provided technical support through installation and configuration of computer hardware and software in personal and collaborative projects
- Deployed and managed cloud resources on AWS S3 and configured domains and DNS records via Route 53 for project websites
- Set up professional email systems using Google Workspace, ensuring proper delivery and configuration
- Designed and implemented responsive web interfaces

using HTML5 and CSS3, integrating them with cloud-hosted projects

## Education & Training

### Business Informatics

31/08/2024 – Current

University Of Debrecen | Debrecen, Hungary

Level in EQF: 6

## Hobbies and Interests

### Tech Enthusiast

- Personal tech and data projects
- Data visualization and dashboards
- Language learning
- Travel and learning about different cultures
- Exploring new technologies through hands-on projects

## Projects

### E-Commerce Data Analysis Project

30/09/2026 – 02/10/2026

- Imported and organized raw data in PostgreSQL.
- Cleaned data and set appropriate data types.
- Created relationships between tables using primary and foreign keys.
- Wrote SQL queries to explore sales, customers, products, payments, and orders.
- Built a Power BI dashboard using DAX measures and visualizations.
- Published the project on GitHub and added it to my portfolio.
